

**I CAN create lightning using basic geometric shapes.**

Can you see how lightning can be made from geometric shapes?

What shapes can you 'see' in the lightning bolts above?

Now you take the colored paper provided and make some lightning bolts to help complete our 'geometric storm' display.

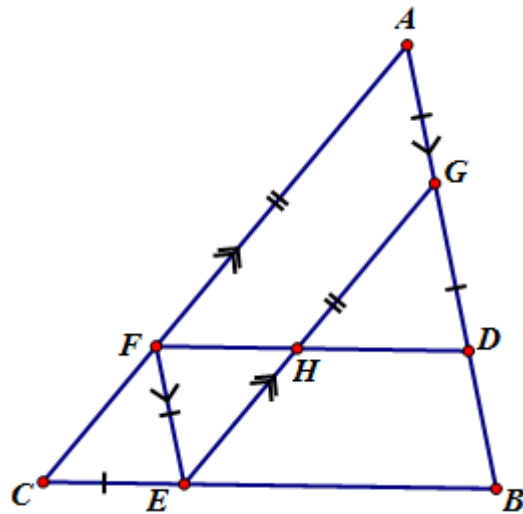

**Geometry**  
**Unit 1—Tangrams**  
**Exit slip**

**Name:** \_\_\_\_\_

**Period:** \_\_\_\_\_

Now looking at the shape below tell what you know:

Find the geometric shapes and describe them:

Triangles:

(for example ) -

Trapezioids:

Quadrilaterals:

Parallelograms:
